

The class of 9T8 celebrated their 10-year reunion on November 8 and 9, 2008. Classmates traveled from British Columbia, Alberta, Nova Scotia, Quebec, California, and from all over Ontario to attend.

The reunion kicked off with an accredited CME event which included seven informative presentations: Diabetes Update, Tuberculosis Update, Nutrition in the Office, Disparities in Women's Health in Ontario, Common Clinical Questions about VTE, Abortion in Canada, and Paediatric Critical Care in the Developing World. Thanks to our speakers Alice Cheng, Eileen de Villa, Michele Farrugia, Wendy Lim, Tom Ransom, Ben Sivarajan, and Michelle Wise. Note for future reunion planning, don't put the nutrition speaker before the refreshment break!

The CME was followed by a cocktail reception and dinner at the Faculty Club. Ed Berdusco and Alain Gauthier resurrected the graduation slide show and presented a new and improved (perhaps with the exception of one slide!) digitized version over dessert!

Classmates and families attended a brunch the following day at Richtree Market.

There were many people who provided a great deal of assistance in organizing the reunion. Many thanks to Leanne Pepper, Olga, and Ali at the Faculty Club; Dr. Barney Giblon and Karma Farah of the Faculty of Medicine's Office of Continuing Medical Education; and an extra big thank you to Ruth Gillings from the Medical Alumni Association.
